OBAR SYSTEMS

QUALITY SERVICE

We believe the key to our success over the last 30 years has been the quality of our service.

We work hard to help homeowners, Realtors and attorneys resolve radon problems in a timely and efficient manner. We strive to maintain our reputation as honest hard working professionals who can get the job done.

When you contract with us you will receive the personal attention of an owner who will supervise every aspect of the job and guarantee your satisfaction.

OBAR SYSTEMS

OBARSYSTEMS

CUSTOM DESIGN

OBAR can custom design a system to fit your needs. We have engineered and installed systems for a variety of buildings ranging from historic homes, to schools, to large commercial buildings.

- Diagnostics are performed with custom equipment designed and manufactured by OBAR.
- In house design and installation services.
- Guaranteed results.
- OBAR works with manufacturers to produce custom products for your designs.

OBAR SYSTEMS

STABILITY AND TRUST

OBAR SYSTEMS was established in 1985. In 1987 we purchased our Rt 23 location, and as we grew we purchased an additional property on Oak Ridge Road. While many other companies have come and gone OBAR has remained. When times were good we invested in the company and in tough times we weathered the storm by working hard and providing a quality product and service at a fair price. You can count on us to be here and continue to be leaders in customer satisfaction.
